

## SULTAN READY TO FACE WAR

Porte Has Ordered Strong Defense for Port of Salonica.

## MINES BEING LAID

War with France is Certain To Result in a Division of Turkey.

## POWERS WILL AGREE

Vienna, August 28.—The Tageblatt's Constantinople correspondent says the sultan declares that he is ready to face war with France.

The Porte, says the correspondent, has ordered three hundred German guns for the defense of Salonica and other ports and has ordered the laying of mines in the approaches to the harbors. The sultan, the correspondent asserts, is planning defenses day and night.

### Hope to Avoid War

Paris, August 28.—An inspired article in today's papers intimates that the rupture with Turkey is not final. It is generally believed that Constant's energetic move in the matter will suffice to overcome the sultan's resistance and the rupture entailing hostilities will be averted.

### Partition of Turkey at Hand

Paris, August 28.—The diplomatic relations between France and Turkey are at an end and it is believed that the partition of Turkey is at hand. M. Constans, the French ambassador to Turkey, is on his way to France and M. Munir Bey, the representative of the Ottoman empire to France, who is now in Switzerland, has been notified not to return to Paris.

It is feared that unless the sultan yields at once France will be forced to take extreme measures. The first step will probably be the taking of some Ottoman custom house port to compel Turkey to come to terms. This action, it is believed, will result in the dissolution of the concert of the powers regarding Turkey embodied in the treaty of Berlin. This may lead to the partition of the Ottoman empire among the powers.

## SMALLPOX AMONG THE WINNEBAGOES

Investigation Shows Thirty Cases at Black River Falls and Fifty at Brockway and Manchester.

Black River Falls, Wis., Aug. 28.—Axel Jacobson of Wittenberg, superintendent of the Indian schools, together with Dr. Quigg of Tomah, was in this city today investigating the smallpox epidemic among the Winnebago Indians.

They found the situation much more serious than they anticipated. Within a distance of three miles there are thirty cases. The report of fifty cases in the towns of Brockway and Manchester is much too small, and there is no end of the plague in sight.

The state has practically refused to come to the aid of the town and the Indians come and go at pleasure, and the disease is spreading.

Milwaukee, August 28.—The City of Sturgeon Bay has been opposed to smallpox, and while it is impossible to say how extensively the disease has been communicated, there is little doubt that practically the entire population of 3,000 has been exposed. A physician diagnosed a number of cases of small pox as chicken pox and failed to enforce a quarantine. A rigid quarantine is now enforced.

## BRITISH NEED MORE TROOPS IN CHINA

London, August 28.—A Globe Shanghai dispatch says that the authorities at Peking have telegraphed for more British troops.

## COPIOUS RAINS IMPROVE CROPS; CONDITIONS MUCH MORE FAVORABLE

Corn Crop in Wisconsin Generally Good—One-Half Tobacco Crop in Shed—Potato Crop Light.

Washington, D. C. August 28.—Following is the weekly official crop report issued by the agricultural department today: The weather conditions of the week ending August 26 have been generally favorable, except in the middle and south Atlantic and east gulf states and Tennessee, where heavy rains have damaged crops and interfered with work, and in some districts washed lands and caused inundations. Drought conditions still prevail in portions of Iowa, Oklahoma, and Texas, in the last named state becoming serious in localities. Rain also is needed in Michigan, Nebraska, the north Pacific states, and portions of Kansas and Missouri. The temperature conditions have been favorable for the best results, except in portions of Missouri, Kansas, Oklahoma, Texas, Montana and Washington. Continued improvement in the condition of the late corn is general.

## FORESTERS OF AMERICA MEET.

Supreme Court Opens Two Days' Session in Baltimore.

Baltimore, Md., Aug. 28.—The seventh biennial meeting of the supreme court of Foresters of America convened in this city this morning. Nearly 200 delegates from twenty different states are in attendance and the business sessions of the meeting will occupy their time for two days. The balance of the week will be spent in sight-seeing and enjoyment. The only portion of the meeting proper open to the public was that of this morning, which was devoted principally to an address of welcome by Acting Mayor Henry Williams of Baltimore and a response by Chief Ranger Thomas J. Ford of Pittsburg. The delegates then went into executive session.

Among the features of the week's entertainment will be a banquet tomorrow night and an excursion to Annapolis on Thursday.

## SWINDLER FAILS TO MAKE IT WORK

Albert Jones, Blew Into Town and Blew Out Again with Empty Pockets.

Albert Jones, of Columbus, O., representing himself to be the advance agent of the Seils-Forpaugh circus did not make much out of the merchants of Janesville although he did succeed in making some of them believe that he was the "real thing."

Jones struck Janesville on Monday. He registered at Holt's hotel and asked Clerk Gorden to change a \$5 bill and keep \$2 out for him so that he would have some money if he should get broke. This made Gorden suspicious of him, and he made up his mind to watch him.

Jones visited Alderman Murray, John F. Sheridan, William Buob and Alderman McLean tried to contract for circus supplies, but they all turned him down.

About this time Chief Hogan heard of the gentleman and went after him. He found out at the hotel that he had left town and had tried to touch Clerk Gorden for \$2 before he left but could not work him.

## RING LEADER HOEY AGAIN ARRESTED

Nogales, Ariz., August 28.—Customs Collector Hoey, alleged to be the ring leader of the gigantic Chinese smuggling scheme, was re-arrested Tuesday on the second charge and released on \$4,000 bail. Deputy Sheriff Durnell, one of the government's principal witnesses against Hoey was also arrested, suspected of complicity in the smuggling cases. Hoey's examination is set for Thursday.

## PRIVATION AMONG TEXAS SETTLERS

Fort Worth Texas, August 28.—Reports of destitution among the people of Zapata county as a result of the drought continue to be received. Many are dying of starvation. Hundreds are emaciated from lack of sustenance.

## SAMPSON WILL BE A WITNESS

Washington, August 28.—The list of witnesses to be called before the Schley court of inquiry by the navy department were made public this morning. They are headed by Admirals Sampson, Evans, Higginson, Cotton Taylor, and include eleven captains, nine commanders, eight lieutenant commanders, ten lieutenants and many minor officers.

## GIRL STILL LOVES A MEXICAN PRIEST

Fort Worth, Texas, August 28.—Father Amada, the Mexican priest, who ran away with a young girl and sixty thousand dollars belonging to the church has been returned to Mexico by Spain where he was arrested. The girl was also brought back. She is still in love with the priest.

## ROCK COUNTY CIVIL WAR VETERANS' GRAND REUNION HERE TOMORROW

Laying of the Corner Stone of the Soldiers' and Sailors' Monument in Court House Park—Impressive and Interesting Ceremonies—Program.

Old soldiers and sailors from all parts of Rock county will flock to Janesville tomorrow to attend the grand reunion. In connection with this reunion will be the laying of the corner stone of the soldiers' and sailors' monument and the depositing of a box in the cavity containing many things of interest to the future generations. The foundation of the monument has been completed and this was selected as a fitting time to lay the corner stone and deposit the articles when so many ex-soldiers and sailors would be present.

An elaborate program has been arranged and speeches will be made by some of the most prominent men of the state. Col. E. O. Kimberly, the soldier who first saw marching through Georgia before General Sherman, will be present and read some of his war songs in a manner that never fails to please his hearers. The full program is as follows:

Invocation by Rev. W. W. Woodside. Address by Senator J. M. Whitehead. Deposit box in corner stone. Song by Col. E. O. Kimberly, "As the Years Roll By." Address of welcome by H. S. Glicker, acting mayor. Response by Dr. J. B. Whiting. President's annual address. Song by Col. Kimberly, "Comrades Close Together." Address by A. H. De Groff, dep't commander G. A. R. Address by President Albert Salisbury, of the Whitewater Normal. Music.

## TO EMPLOY NONE BUT NON-UNION MEN

Steel Magnates Will Open Their Mills with New Men—Shaffer Makes a Denial.

Pittsburg, August 28.—The American Tin Plate company, following up its announcement to open its mills closed by the strike has advertised for non-union men to fill the places of the strikers. The significant word, "non-union" tells the story of the manufacturers' intentions regarding the character of the men they will take in to open their plants.

Another large lot of non-union men are said to have reached the city today. Shaffer today gave out a specific denial of the story that the executive board of the Amalgamated was voting by mail on a peace proposition.

Pittsburg, August 28.—The Star Tin Plate works managers succeeded in placing additional men in their plant last night and today for the first time since the strike three turns of eight hours each on the two mills are working. The Painter plant is running six mills today.

## COLOMBIA IS IN VERY BAD SHAPE

Washington, August 28.—According to advices received here from Colombia is in great financial straits, the revolution having cost two hundred million dollars during the past two years. The revenue derived from commerce is practically nothing. The prices of necessities are increased and there is great suffering among the laboring classes.

## STARR HESITATES TO SHOOT BURGLAR

Light Fingered Caller Entered His Residence on Court Street, But Was Discovered in Time.

A burglar endeavored to enter the home of F. P. Starr, 353 Court street at four o'clock this morning. Mr. and Mrs. Starr were awakened by a person endeavoring to open the blinds to the room in which they were sleeping which caused a grating noise by coming in contact with the window screen, the lower sash being raised. Mr. Starr's first thought was to try to perforate the fellow, as he had a six-shooter near at hand, but on second thought he gave him a chance to move by asking him what he could do for him, and advising him to move on, which he did with alacrity. Frank says that if it was money the fellow was after he would have been fooled, as he never keeps any money at the house.

## ATTACKED BY MASKED MEN.

Litigation Over Alaska Claims Results in a Fierce Fight.

San Francisco, Cal., Aug. 28.—Advices from Nome tell of a murderous attack made by an armed mob of seventy masked men at Glacier creek, the outcome of litigation over mining claims. Richard O'Connor, one of the party, attacked in a camp, the occupants of which were forced to leave, was shot through the groin, and was at death's door when the steamer St. Paul left Nome.

Warrants were issued for the arrest of the attacking party and were placed in the hands of deputies, who were awaiting the result of O'Connor's wounds before making arrests.

Died.—At her home in Boscobel, Wis., Aug. 24th, 1901—Mrs. Lottie Barnette Pepper. She is quite well known here, being a sister of Mrs. Isaac Farnsworth, of South Jackson street.

## IT IS WARM AGAIN IN THE SOUTHWEST

Thermometer Registers 94 in Southern Kansas—Epidemic of Fever is Feared at Lawton, O. T.

Topeka, Kan., August 28.—The last two days in Kansas have been excessively warm. Yesterday the weather was as oppressive as during the drought, as far as the heat was concerned. The thermometer here yesterday registered 94. In the southern part of the state the temperature was higher, reaching 110 degrees in Wellington. Some local rains are reported tonight.

Fever is Feared at Lawton. Lawton, O. T., August 28.—Thermometer registered 112 degrees here yesterday, the hottest of the summer. Sanitary conditions are bad and an outbreak of fever is feared.

## MINISTERS DECIDE THERE IS A HELL

The Doctrine of Future Punishment Will Hereafter Be Preached More Regularly.

Winona, Ind., August 28.—That there is a hell and that the doctrine of future punishment shall hereafter be preached more vigorously than ever is the decision reached today at a meeting of ministers of every denomination that is represented at the Winona Bible conference, which closed its seventh annual gathering last night. The meeting was prompted by an address delivered by the Rev. L. W. Munhall of New York earlier in the day.

Rev. John McNeill, the noted Scottish pastor, in his closing address hailed ministers over the coals for what he termed "Cuckoo preaching." "We must fear God as well as love Him," said he. "Preachers should stop coddling and consoling people. There is entirely too much of it."

## ITINERARY OF THE VICE PRESIDENT

He Will Begin His Western Trip Tomorrow Morning—in Minneapolis on Sept. 3.

New York, August 28.—Vice President Roosevelt will begin his western trip tomorrow, leaving on the Pennsylvania limited at 10:14 a. m. He is due in Chicago at 9 a. m. Friday, and is scheduled to leave thirty-five minutes later for Springfield, Ill., there to be the guest of Governor Yates and review the militia in the state camp.

The vice president will reach Chicago on the return trip on Saturday morning and will remain at the Auditorium Annex until Sunday afternoon. He will leave Chicago at 6:30 p. m. for Minneapolis, where he will speak on September 2 and 3. From there he will go direct to Burlington, Vt., where he will address the veterans on September 5, returning to New York on the following day.

## SUSPEND MERRILL: BELOIT ATHLETE

Amateur Athletic Union Has Stricken Him From Roll, Pending an Investigation.

Milwaukee, Wis., August 28.—It is learned here today that Merrill, the crack athlete of Beloit, has been suspended by the amateur athletic union pending an investigation as to the charge of professionalism. It is alleged that he competed professionally at Dixon, Ill., on Aug. 14.

## \$5,000,000 EACH FOR THE FAIRS.

Fees and Commissions of Nearly \$500,000 Are Ordered Paid.

San Francisco, Cal., Aug. 28.—The fees and commissions amounting to \$402,517, which Judge Troutt has awarded to attorneys and executors of the James G. Fair estate, are in addition to the \$30,000 given each of the executors by the New York Probate court for the administration of the portion of the estate located in that city.

The trial valuation on which the executors' commissions were computed is \$17,871,645. Other heavy fees are yet to be paid, but it is estimated that \$5,000,000 will remain for each of the late Senator Fair's three children.

New York, August 28.—A Saratoga dispatch quotes Wm. C. Whitney as saying he is out of politics forever.

## GREAT GATHERING OF ODD FELLOWS

Indianapolis Committee Counts on Attendance of 100,000 Visitors and Delegates.

Indianapolis, Ind., Aug. 28.—Preparations for the seventy-seventh annual convention of the Odd Fellows' sovereign grand lodge in this city, beginning three weeks from yesterday, are now practically finished. Indications are that the meeting will attract the largest number of fraternal men ever assembled at one time. The committees are counting on an attendance of over 100,000 including visitors and delegates. Every state in the Union is to be represented. Other visitors will come from Canada, Nova Scotia, Mexico and even from Europe.

The principal feature of the week will be the parade on Tuesday, September 17, in which 25,000 Odd Fellows will participate. The parade is to be reviewed by Grand Sir and Commander in Chief Cable from a point in Monument place.

On Thursday memorial services will be held at the statue of Schuyler Colfax, the founder of the Rebekah organization, in University park, and the golden anniversary of Rebekah Odd Fellowship will be celebrated. There will also be receptions and other social events.

On Friday the grand decoration of chivalry will be conferred and prizes will be distributed. The sessions of the sovereign grand lodge will continue Saturday, the closing day.

## WILD OIL GUSHER AT BEAUMONT, TEX.

Defies the Mechanical Skill of Men; Check Its Flow—Two Men Lose Their Lives.

Beaumont, Tex., August 28.—Two men are dead and one of the largest oil gushers in the world is going absolutely wild, utterly defying the mechanical skill of men to stop it.

The famous oil field presents today the possibility of one of the direct calamities which ever visited Texas should fire join forces with the great gushers. Tomorrow the gusher will still be spilling itself on the prairies and flooding the country with oil.

James Smith died trying to shut off the gusher and John McDaniels died trying to save Smith. Both showed great heroism. The wild gusher is in the Hogg-Swayne syndicate tract. The well belongs to the Palestine-Beaumont Oil company.

## BURR W. JONES IS COY

Denies He Said He Was Willing to Run for Governor on the Democratic Ticket.

Madison, Wis., August 28.—(Special)—Ex-Congressman Burr W. Jones who has just returned from a two months' visit to Europe, denies in a statement today that he has ever stated that he would be willing to accept the democratic nomination for governor, but avoids the direct question as to whether he will accept.

## STATISTICS OF FARM LABORERS; WAGES PAID IN THE VARIOUS STATES

Greater Number of Persons Directly Engaged in Agriculture Than Any Other Branch of Labor.

Washington, August 28.—Statistics of farm labor and wages paid in the several states and territories, have been prepared by the agricultural department, and are soon to be issued in the form of a bulletin by the department. A greater number of persons are directly engaged in some form of agriculture than in any other branch of labor. There were 22,735,681 persons, 10 years of age and over, having gainful occupations in the United States in 1890, of whom 8,295,681, or 36.5 per cent., were engaged in agriculture; of these, 3,004,061 were agricultural laborers, the class whose wages are the subject of this report.

Agricultural laborers—that is, those who work for hire, are a decreasing element as compared with the entire farm labor of the United States. In 1870 they constituted 48.9 per cent., or nearly one-half, of the agricultural workers; in 1880, 43.6 per cent., and in 1890, 35.8 per cent., or a little more than one-third. The latest year covered by this report is 1890.

Farm wages per month, by the year or season, without board and with board, were higher in 1890 than 1880. In the rate of wages, with board, per month by the year, from 1890 to 1899, the smallest changes are in Georgia, Texas and New Mexico, each less than one per cent. The highest gain was in Minnesota, 10 per cent., followed by Wisconsin, nearly 10 per cent., Washington and Michigan, each 9 per cent.; North Dakota, 8.5; S. Dakota, 7.5 per cent.; and Wyoming 7 per cent.

In the United States, as a whole, wages per month by the year or season, both with and without board, had their maximum in 1860, and their minimum in 1879.

## KNIGHTS DRILL AT LOUISVILLE

Beautiful Sight on the Streets of the Kentucky City.

## PLACE IS PACKED

Templars Take Occasion to Give Name of Admiral Schley an Ovation.

## WAS A GRAND PARADE

Louisville, August 28.—The Knights Templar prize drill began today. The day could not have been more beautiful if it had been made to order. Fully ten thousand were in the grand stand when the drill began. The first drill corps to appear was the Columbia of Washington. Denver was next and showed to much better advantage than Columbia. The movements brought much applause from military critics.

Citizens in Good Humor. The streets of the city are packed. The crowd is perfectly good natured, nevertheless, but it is almost impossible to get from one place to another, except on the street cars or on the side streets. Electric lights are hung out in reckless contempt of expense.

All Will Aid Schley. Thirty thousand knights and 300,000 spectators cheered for Rear Admiral Schley today during the ceremonies attending the monster parade of the commanderies. The parade itself was a grand affair, in which 30,000 Sir Knights marched over a line four miles in length. It was after the officers of the grand encampment had reached their meeting place, the girls' high school, Fifth and Hill streets, at 3 o'clock, that the Schley demonstration reached a climax.

Judge Henry S. Barker, acting as personal representative of Governor Beckham, who is kept at his wife's bedside, made a speech which brought the officers of the encampment from the highest to the lowest to their feet in a yell of applause.

Judge Barker rehearsed the calumnies and persecutions under which, he said, Sir Knight Winfield Scott Schley was suffering. He exhorted the Knights Templar throughout the country, and particularly the eminent ones, the officers of the grand encampment, to support their brother.

Second Day's Session. The second day's business session of the Templars was attended by only two hundred delegates, the majority being at drill. Grand Master Lloyd's report showed the order to be in a flourishing condition with a membership of one hundred and twenty-five thousand. Milwaukee now shows the best chance of securing the next encampment.

## GOLD MEDAL FOR CAPT. H. W. NEWTON

The Medal Provided by the Legislature Will be Presented to Him Friday Evening.

Madison, Wis., August 28.—(Special)—The gold medal provided by the legislature for Capt. Harry W. Newton of Superior, in recognition of his services in the capture of Aguinaldo was sent to Superior this afternoon by Governor La Follette and will be presented on Friday evening. The governor has designated Assemblyman Lenroot to make the presentation for him and has also requested Governor Van Sant of Minnesota to allow the Duluth militia company to take part in the exercises.

Salvador In Volcano's Grasp. San Francisco, Cal., Aug. 28.—The steamer San Jose from Central America reports that at Acapulco it was said that another revolution for the purpose of overthrowing the government of Salvador was imminent, though no outbreak had yet taken place.

## INTERNATIONAL GOOD ROADS CONGRESS

Call for a General Meeting to Be Held in the City of Buffalo on September 16 to 21.

The Gazette is in receipt of a call for an International Good Roads Congress to be held in the city of Buffalo, State of New York, September 16-21, 1901. The call is issued by the National Good Roads association of the United States. It is signed by W. H. Moore, president.

The subject of highway improvement is demanding the best thought and action throughout the nations of the world. The National association recognizing the great importance of arousing attention, promoting discussion, stimulating scientific investigation, making practical demonstrations, collecting and disseminating information relating to the best methods of road construction and maintenance, respectfully invite the General Governments of the United States and of the various other nations of the world, the governors of the several states of the Union, Mayors of all municipalities, presidents of boards of trade and road associations, and all other societies and bodies working for the improvement of the common roads, to appoint delegates to said congress.

All sessions of the congress will be held during the Pan-American exposition. It is designed to devote a portion of the time included in the dates above named to demonstrate

the scientific methods of modern road construction by building sections of the various classes of roads including earth, oil, gravel, stone, tarmacadam, vitrified brick, etc. A special railroad train equipped with modern road making machinery will be on exhibition, and practical road experts and engineers will have charge of the work.

The scope of the deliberations of the congress will include general discussion and exemplification of the science of road construction and maintenance, together with experimental tests and experience of the several countries of the world and the states of the union, and the solution of the problems of road making. Addresses will be made by prominent statesmen and officials, competent engineers, and scientific road experts from the various nations of the world.

This will be the first International Good Roads congress ever held. It is designed to have an interchange of knowledge and experience between the Old and New world on this important subject, and thus attract universal attention to road improvement. The basis of representation should not exceed one delegate for each 2,000 population. Reduced rates to delegates will be made over all railroads.

porter visited State Veterinarian E. D. Roberts at his office in this city in regard to this disease. Dr. Roberts stated "that lumpy jaw or actinomycosis was not near as bad as was claimed in these articles. The disease is easily cured in its early stages and is cured every day by veterinarians throughout the state. Ninety-eight per cent. of the cattle can be cured by proper treatment."

It is his practice when diseases of this kind are reported to him to instruct the people to employ a veterinarian to operate on the cattle and in most cases is successful. There is no question but that the disease can be cured if taken in time.

Dr. Roberts is kept busy running about the state looking up contagious diseases in cattle, and seeing that proper care is given to them.

## SEMI-FINALS IN HOME TOURNAMENT

Finals on Tuesday Next on the Buckle Links—Mixed Handicap Foursome.

The semi-finals in the home tournament of the St. Louis Golf club were played yesterday afternoon on the club links. The course was in first-class shape and many good scores were made by the contestants in the matches. The finish was as follows:

Class A: C. C. MacLean beat Geo. Baumann, 4 up, 3 to play. Al. Schaller beat J. P. Baker, 3 up, 2 to play. Class B: Chester Brewer beat H. S. McGiffin, 4 up, 2 to play. Burns Brewer beat F. C. Grant, 1 up.

Class C: O. Sutherland beat H. W. McNamara, 3 up, 2 to play. F. Baker beat H. R. King, 3 up. The finals which will be played on Tuesday next will bring together in Class A, Al. Schaller, scratch, and C. C. MacLean, handicap eight. In Class B, Chester Brewer, handicap 6, and Burns Brewer, handicap twelve and in Class C, F. J. Baker, handicap 6 and O. Sutherland, handicap 6.

A mixed handicap foursome was also played yesterday afternoon for a prize consisting of half a dozen golf balls divided into three prizes. The first prize of three balls was won by Mrs. Anson Mayhew of Milwaukee and Mark Bostwick.

The pairs who entered the contest were: Mrs. Anson Mayhew vs. Mark Bostwick; Mrs. F. C. Grant vs. K. C. Mrs. W. A. Jackson vs. O. Sutherland; Mrs. C. L. Fife vs. C. L. Fife; Lizzie Shicker vs. H. W. McNamara; Belle McLean vs. Chet Brewer.

At the finish of the matches supper was served in the club house and enjoyed by about one hundred and twenty-five. The balance of the evening was spent in dancing. Roy Carter presiding at the piano and furnishing the music.

## RUSHING WORK AT CANNING FACTORY

Work of Erecting the Wrecked Portions Began This Morning—New Machinery by Express.

The work of erecting the wrecked portions of the canning factory began this morning. John Peters will do the mason work and Blair & Somers the carpenter work. As fast as the outer walls progress the interior work will go on so that when the roof is in place the interior will be practically completed.

A large amount of new machinery has been shipped in by express and will be fitted up and ready to connect with the pipes as soon as the building is in shape. Temporary arrangements are being made to handle as much of the produce as possible and what cannot be taken care of here will be sent to other points. The growers will be protected in every way.

## HEAT AND DROUTH MAY KILL TREES

Already Elms Are Losing Their Leaves as Though It Was October—Spring Will Tell.

A veteran tree trimmer, who has watched trees all over the city for two score years and trimmed them from time to time, says it will be a surprise to him if the majority of the trees in the city do not die as the result of the heat and dryness of this summer.

It is hard enough to keep trees growing in a paved and drained city, as the water from a rain is carried away in a few hours and has no time to soak into the ground and moisten the roots of the trees. Add to this an almost entire absence of rain, a scorching wind and heat far beyond any previous record, and the death or injury of the trees is not surprising.

Already the elms are losing their leaves as though it were October instead of August, and many look as though they had been frost bitten on the tops.

It is to be much regretted, as the trees have been the principal natural beauty of the city, and they have been tended carefully and much effort expended on their growth. Some of the trees are priceless and have taken years to reach maturity. They cannot be replaced without years of effort, if indeed the young trees can be made to grow at all.

There seems to be no cure for the condition and the harm has been done. Owners of trees will watch anxiously next spring to see whether the foliage comes out and it is feared many trees will not show the green buds when the sap should have mounted to the tops of the branches.

## Tailor-Made Suits.

Women's tailor-made suits at figures that are drawing in customers.

We are making lower prices on good suits than any other house in Janesville. Another thing, and an important one, we have more suits to offer.

Comparing new fall styles with late spring suits the difference is not great, and women can buy our suits at figures in many instances less than half price and be the possessors of a good substantial stylish costume. This suit matter is certainly worth looking into.

## CATTLE RAISING A GOOD BUSINESS

Mention must be made of the expense account, even though it is small and ridiculously simple. The average cowboy is paid \$25 per month, and the foreman, if there be one, perhaps twice or thrice that amount. On a few of the largest ranches the foreman receives \$100 per month. In all instances board and lodging are included. On one very fine ranch, the foreman is allowed a salary of \$3,500, a large house, provisions, and free medical aid. This is an exceptional case, but the responsibility is great, particularly so, for the owner never visits his property. Owing to the inaccessibility to towns and the excessive cost of transportation, from one to three months' provisions are bought at one time. The list includes Mexican beans, oatmeal, bacon, coffee, flour, molasses, and, occasionally, dried fruit and canned tomatoes and corn. One dollar per week is a large estimate for the cost of feeding a single person. Other expenses consist of repairs and minor improvements. Fencing is an important problem; new ones must be built at an average cost of sixty dollars per mile, and old ones kept in the best of repair. Personal expenses differ according to individual tastes. As a rule the cowboy dresses more expensively than his employer, and owns his own saddle and bedding. Even so, one hundred dollars is an average outlay for the year.

Despite the problems which must be met and overcome, there is not one which lessens the interest the progressive stock man feels in his ever-increasing herds, which should keep out of the business the ambitious young man with more energy than money. Nature and time are the two most important requisites, but hard work and perseverance are quite as essential; if the herds are to be successfully raised and prepared for the market. The present successes have been won principally by those who began a decade or two ago, when, as cowboys, they accepted cattle in preference to money wages, and this at a time when cattle were cheap. Today little encouragement is given the cowboys, and few, if any, ranchmen will allow their men to "run" any cattle on their property. In consequence, there is little stimulus offered and rare indeed is the case where an employee puts aside his small earnings intending to buy a "bunch" of cattle as soon as he has saved up one or two thousand dollars.

As long as land can be obtained at a nominal sum, and beef continues to be our most utilitarian diet, despite advancing prices, so long will cattle ranching produce greater returns on less capital than almost any other industry. Finally, if the environments of the plains seem primitive, and there be lacking the social and intellectual stimulus of the town, recompense is had in continued good health, the result of vigorous outdoor life in the high altitude and equable climate. From "The Economics of Cattle-Ranching in the Southwest," by Robert M. Barker, in the American Monthly Review of Reviews for September.

## FAIR FUTURE FOR THE AUTOMOBILE

The bicycle was at one time a novelty and a luxury, but the high price was not due to the fact that the manufacturers desired to make excessive profits. Special machinery had to be purchased in order to make the machines at all; and the

starting of an entirely new industry would have been impossible unless such prices were charged. It seems evident that the present prices of the automobile are more reasonable than were the prices of the early bicycles. It is always possible to make a cheap automobile, but this intention is not held by any reputable manufacturer of automobiles today. Cheap automobiles will not last, even in the hands of a person who knows how to give them proper attention. Machinery must be of the best to stand, not only the wear and tear caused by the rough roads, but the abuse which it is almost sure to receive when it gets into hands which will not operate it carefully or give it the necessary attention.

It is hardly necessary to predict the future of the automobile, and the question as to whether it will supersede horses is by no means an important one. The automobile is not a fad or plaything, although probably a large percentage of the present owners have merely taken it up on account of its novelty. There is no doubt the bicycle was largely sold at one time as a fad, but it has now come to be the boon of millions of workmen. It appears that the demand for bicycles is as strong as ever, only a different class of people are employing them.

As time goes on automobiles of all types will undoubtedly show material improvement, although radical changes are hardly to be expected. It must be remembered in this connection that although the automobile is novel, it merely consists of the application of well-known and tried devices to a road carriage, the combination forming, indeed, a strict innovation. The first few years of the automobile industry in this country have shown a remarkable demand for motor vehicles. So far, the greater part of the machines have been for pleasure purposes. This demand is not likely to decrease, for with the improvement of the roads automobile touring will become even more popular than it has been.

As to the commercial importance of the automobile, it can be said that it is already a boon to physicians, and a necessity to many business houses. As a method of transporting passengers or freight, it has unlimited possibilities.

## CASE OF GLANDERS IN ROCK COUNTY

Dr. Roberts Kills Two Horses Belonging to a Farmer Near Shopiere—Great Caution Needed.

The dreaded disease among horses known as the glanders has broken out among the horses in Rock county. It is supposed to have been brought into this country by the range horses from the West which have been shipped in here in large numbers and sold to the farmers throughout this and adjoining counties.

The latest cases of this dreaded disease were discovered among the horses owned by a farmer by the name of Maffette residing near Shopiere, a small town about seven miles south of this city. State Veterinarian E. D. Roberts was notified that two horses were sick and at once investigated the matter and pronounced both horses suffering from glanders and had them killed at once. The balance of the horses on the farm were quarantined to prevent the spread of the disease.

Mr. Maffette purchased one of these horses a year ago from some parties working on the grading of the Janesville & Southeastern railroad near Emerald Grove. He had a discharge at the nostrils at that time but Mr. Maffette thought it was distemper or catarrh. All of the horses about his place have since been exposed to the disease which is highly contagious and close watch is being kept for any further signs of the disease among the horses on the farm. This disease is quite prevalent among the range horses of the West and farmers should be careful when purchasing this class of horses to see that they are not affected.

On account of articles that have recently appeared in the Milwaukee Sentinel and Evening Wisconsin, in regard to lumpy jaw in cattle, a re-

porter visited State Veterinarian E. D. Roberts at his office in this city in regard to this disease. Dr. Roberts stated "that lumpy jaw or actinomycosis was not near as bad as was claimed in these articles. The disease is easily cured in its early stages and is cured every day by veterinarians throughout the state. Ninety-eight per cent. of the cattle can be cured by proper treatment."

It is his practice when diseases of this kind are reported to him to instruct the people to employ a veterinarian to operate on the cattle and in most cases is successful. There is no question but that the disease can be cured if taken in time.

Dr. Roberts is kept busy running about the state looking up contagious diseases in cattle, and seeing that proper care is given to them.

The semi-finals in the home tournament of the St. Louis Golf club were played yesterday afternoon on the club links. The course was in first-class shape and many good scores were made by the contestants in the matches. The finish was as follows:

Class A: C. C. MacLean beat Geo. Baumann, 4 up, 3 to play. Al. Schaller beat J. P. Baker, 3 up, 2 to play. Class B: Chester Brewer beat H. S. McGiffin, 4 up, 2 to play. Burns Brewer beat F. C. Grant, 1 up.

Class C: O. Sutherland beat H. W. McNamara, 3 up, 2 to play. F. Baker beat H. R. King, 3 up. The finals which will be played on Tuesday next will bring together in Class A, Al. Schaller, scratch, and C. C. MacLean, handicap eight. In Class B, Chester Brewer, handicap 6, and Burns Brewer, handicap twelve and in Class C, F. J. Baker, handicap 6 and O. Sutherland, handicap 6.

A mixed handicap foursome was also played yesterday afternoon for a prize consisting of half a dozen golf balls divided into three prizes. The first prize of three balls was won by Mrs. Anson Mayhew of Milwaukee and Mark Bostwick.

The pairs who entered the contest were: Mrs. Anson Mayhew vs. Mark Bostwick; Mrs. F. C. Grant vs. K. C. Mrs. W. A. Jackson vs. O. Sutherland; Mrs. C. L. Fife vs. C. L. Fife; Lizzie Shicker vs. H. W. McNamara; Belle McLean vs. Chet Brewer.

At the finish of the matches supper was served in the club house and enjoyed by about one hundred and twenty-five. The balance of the evening was spent in dancing. Roy Carter presiding at the piano and furnishing the music.

## SHAFFER'S TERMS OF PEACE

Wants Trust to Honor Last Year's Scales.

## ASKS UNION RATES IN PAY.

Third Point Is "No Discrimination Against Strikers"—He Denies That Amalgamated Has Broken Contracts—Submits Terms to Advisors.

Pittsburg, Pa., Aug. 28.—In a speech made here last night in the West End Auditorium at a meeting attended by many strikers, President Shaffer announced new terms on which he was willing to settle the strike. He said: "We will settle the strike if the trust signs the scale for all mills signed for last year; agreeing not to discriminate against men who left the mills on strike, and guaranteeing to pay union rates in those mills in which the men have proved that they want to organize. The Amalgamated association has not broken its contract. Such charges are as malicious as they are false. It is true that some scales were signed this year, but they were signed by the companies on the condition that other companies of the United States Steel corporation would sign. This was the case with the American Tin Plate company. The Monessen mill had been non-union since it was built. The American Tin Plate company acquired the mill, and asked us to wait, as this was a new mill and was being run as an experiment. This year we demanded that the scale be signed for Monessen. The American Tin Plate company agreed to sign for Monessen as well as other mills. If the American Sheet Steel company could be induced to sign for its non-union mills. We therefore agreed to hold the tin-plate scale in abeyance until the sheet-steel company had signed. This company did not sign, and the tin-plate scale therefore fell through. Our wage scales or contracts do not require us to work for a certain period. They are not real contracts, therefore, and they are signed subject to the rules of the Amalgamated association."

This means that the Amalgamated association would agree to drop the demand to sign the scale for Clark's, Painter's, Lindsay & McCutcheon's, the Wood mill, and the Wellsville sheet mills, if the strikers are taken back. As Shaffer's new terms imply the discharge of men employed to take the places of the strikers a statement just issued by the tin-plate company is significant. It reads as follows: "The American Tin Plate company denies that there are any negotiations on foot looking to a settlement of the strike and authorizes the statement that mills put into operation during the strike will be continued as non-union, and all men going to work now will be continued in their positions."

Council Checks Conkey's Sway.  
Hammond, Ind., Aug. 28.—At its regular weekly meeting last night the Hammond City Council took a hand in the Conkey strike. With angry voice Alderman Henry Whittaker rose shortly before the close of the session and said that he deliberately had been driven off the grounds that surround the Conkey plant, and which belong to the City of Hammond. He asked that these grounds be taken out of Conkey's control and be guarded by a policeman. This the Council granted by a unanimous vote. "Think of it," shouted the alderman. "I and Alderman George Trackert were walking along the road, in that park on Sunday, and

## Contagious Blood Poison

There is no poison so highly contagious, so deceptive and so destructive. Don't be too sure you are cured because all external signs of the disease have disappeared, and the doctor says you are well. Many persons have been dosed with Mercury and Potash for months or years, and pronounced cured—to realize when too late that the disease was only covered up—**Like Bogies Like**—driven from the surface to break out again, and to their sorrow and mortification find those nearest and dearest to them have been infected by this loathsome disease, for no other poison is so surely transmitted from parent to child as this. Often a bad case of Rheumatism, Catarrh, Scrofula or severe skin disease, an old sore or ulcer developing in middle life, can be traced to blood poison contracted in early **The Sin of the Parents**, life, for it remains smoldering in the system forever, unless properly treated and driven out in the beginning. S. S. S. is the only antidote for this peculiar virus, the only remedy known that can overcome it and drive it out of the blood, and it does this so thoroughly and effectually that there is never a return of the disease to embarrass or humiliate you afterwards.

**SSS** cures Contagious Blood Poison in any and all stages; contains no mineral to break down your constitution; it is purely vegetable and the only blood purifier known that cleanses the blood and at the same time builds up the general health.

Our little book on contagious blood poison is the most complete and instructive ever issued; it not only tells all about this disease, but also how to cure yourself at home. It is free and should be in the hands of everyone seeking a cure. Send for it.

**Forbids Discharge of Men.**  
St. Louis, Mo., Aug. 28.—A statute of great interest to union labor, and especially to railway employees, is to be found in the federal statutes. Many lawyers are not aware of the existence of the statute. It makes the discharge of any railroad employee for membership in a labor union a misdemeanor. It is contained in section 10 of chapter 370, Revised Statutes. The penalty is a fine of \$100 to \$1,000.

**Enjoins Men from Picketing.**  
Cincinnati, O., Aug. 28.—Judge Smith of the Court of Common Pleas today granted a temporary injunction against the men locked out by the carriage manufacturers in this city. The suit was filed on behalf of Perin T. Hunter, representing the Carriage Manufacturers' association. The men are enjoined from picketing and from interfering in any way with the business of the various concerns.

**Girls Now on Strike.**  
Chicago, Aug. 28.—Promptly at 7 a. m. today 179 of the girls employed by the W. B. Conkey company at Hammond, Ind., walked out in a body without waiting to see Mr. Conkey and to demand the reinstatement of the officers of their union. This left about fifty girls in this department.

**Illinois Boy Kills Mother.**  
Rushville, Ill., Aug. 28.—Harvey Tolle, aged 19 years, was lodged in jail here on the charge of killing his mother, Mrs. Reuben Tolle, near Camden. Mrs. Tolle was instantly killed last evening by a bullet from a revolver in the hands of her son, who claims the weapon was accidentally discharged. The coroner, however, charges Tolle with murder.

**Erie Railroad Branches Out.**  
Indianapolis, Ind., Aug. 28.—Railroad officials here have declared that all arrangements for the taking over of the Cincinnati, Hamilton & Dayton Railroad as part of the Erie system had been completed and that a formal announcement on the subject would be made within a few days. The final steps are to be taken. It is said, at a meeting in New York early this week, when the transfer will be made. President Underwood of the Erie system, with a party of Erie officials, including the auditors of the road, has been in Cincinnati making a detailed examination of the general offices of the Cincinnati, Hamilton & Dayton Railroad in that city, and also of the terminal facilities of the road. It is also said that President Woodford of the Indiana, Decatur & Western may turn over the road to the Erie officials, as the system is the Cincinnati, Hamilton & Dayton's Western feeder.

Good News for Colombians Reaches Washington.

## WAR DANGER GROWING LESS.

Ten Thousand Men Under Command of General Gonzales Valencia Are Guarding the Frontier Contiguous to Venezuela—What Insurgents Are Doing.

Washington, Aug. 28.—Dr. Silva, the Colombian minister, has received an official mail from Bogota containing information tending to confirm recent telegraph advices indicating that the danger of war between Colombia and Venezuela is growing less. His letters inform him that the Colombian government has received the most positive assurance from the governments of Nicaragua and Ecuador that, in the event of a conflict between Colombia and Venezuela, they will remain absolutely neutral. Dr. Silva's mail also indicates that there has been an improvement in the situation in Colombia, giving details of a complete defeat of a band of 2,500 insurgents under General Marin, at the town of Anapoyma.

These insurgents had previously occupied the town of Giradot, on the Magdalena river, which is small, but important, being the terminus of the railroad from Bogota. The additional information is given that 10,000 men under General Gonzales Valencia are guarding the frontier contiguous to Venezuela. The Navy Department was notified late this afternoon that the gunboat Ranger had finished coaling at Acapulco and had sailed for Panama. The Iowa will also coal at Acapulco. On account of her superior speed, it is believed that she will arrive at Panama before the Ranger.

**Munitions for Rebels.**  
New York, Aug. 28.—The Panama Steamship Company's steamer Orizaba sails at once for Colon, carrying a large number of huge packing cases, which those who are well informed say contain munitions of war for the rebels in the department of Cauca on the Pacific coast of Colombia. On the arrival of the arms at Colon it is said they will be transported by railroad to Panama, and sent thence by an English steamer to Buena Ventura, the seaport of Cauca.

## MEASURES, NOT MEN.

A political party, like any other organization, has for its foundation certain principles to which it subscribes. If these principles are broad and humane, they appeal to popular sentiment and thoughtful judgment, and the party takes, on healthy and substantial growth.

If the test of time demonstrates that the principles are not practical, or if the party introduces theories that are visionary, the rank and file are not slow to detect the weakness.

The two great political parties that have shared the honor of controlling national and state government for so many years, advocate certain principles that appeal to popular judgment, and as a result, they continue to be the dominant parties.

It sometimes happens that erratic leaders spring up within the ranks of these two great parties, and with some new theory of government, under the guise of reform, an army of voters is influenced to follow them, and the party for the moment is demoralized.

States that are naturally republican become infatuated with prohibition, greenbackism, populism or some other fanatical fad, while democratic strongholds are weakened by similar experiences.

Men like Bryan and Debs and Pinckney and Johnson spring into notoriety like rockets, and the old parties are engulfed for the moment in the waves of popular enthusiasm that the new doctrine inspires.

History never fails to repeat itself, however, so far as political parties are concerned, and measures continue to outlive men.

The national democratic party, that has been so badly demoralized during the past few years, on account of leaders that the party could not control, will soon be back in line and ready to pursue the even tenor of its way.

The republican parties will regain the western states that were hypnotized by fanaticism and reform, and the new republican league will save the party in the Badger state from drifting away from its moorings.

The league stands for measures that the rank and file of the party respect and its influence will be broader than the dictation of any man who attempts to lead the party away from principles that have stood the test of time and experience.

Radical reform, of whatever brand, is not popular in Wisconsin. Simon pure democracy, or old time republicanism, satisfies the people, and the will of the majority is always supreme.

## FORCING RELIGION.

The Detroit preacher who tried to force a sermon on those who would not come to church to hear him, may have failed or not, we will probably never know; but that he has succeeded in attracting attention is true.

In these days when so many ministers are racking their brains in an effort to devise ways and means of making their presence felt, it is difficult to decide what methods produce actual conversations.

Ministers are rarely contented with preaching the gospel in the old-fashioned way; like all other mortals, they have to be in style, and entertainments are fast taking the place of the old gospel sermon; we are not prepared to pass judgment on these methods until the results prove the efficacy of the means.

The Detroit minister evidently was unable to attract to his church the people he thought needed his preaching, and so he went to the race track. Then he found a base ball game in progress and had to postpone the sermon until the end of the ninth inning. Gathering the players and the spectators in the grand stand, he began his exhorting, when it was whispered about that a keg of beer was on tap in the stables. It was all up with the congregation then, the minister had things his own way while the beer lasted.

Apparently, the minister failed dismally in his attempt to do good for he made the attempt the cause of levity and sneers; some who at least respected the pastor and his calling were led to sneer and jeer and so lost that which they had.

But to say the efforts were entirely lost would be going too far. Who can tell but some young man was touched by the music or sermon so

as to recall the days of his home life when the church and the Sunday School were a part of his home life; the visions of a loving mother, perhaps called back again and her prayers for her boy may have been recalled in love and tenderness. Such possibilities lie before every minister and the unsatisfactory part of it is no one ever knows how far he is successful in recalling to minds of wandering boys scenes and influences which will start them on the right way again. A song, yes, even one of Prof. Triggs' condemned hymns may be the switch that will send the train of thought onto a better and safer track.

It may seem useless for two or three men and women to march the streets, carrying banners and beating drums, but here and there a heart is touched and the boy stops to survey the distance his feet have wandered from the straight and narrow path.

It is well not to sneer at any effort to do good, and no one can question the impulses in the heart of the Detroit minister.

## LOUBET SAFE.

Pres. Loubet of France is a peasant stock, but he is a statesman of the first water and knows the French people to a dot.

He has invited the czar to meet King Alfonso in Paris, and this will mean the continuance of the Waldeck-Rousseau ministry until the spring elections.

The French people will have excitement even at the expense of a revolution. Only a century ago they cut off the heads of kings simply for the pleasure of the intense, insane excitement it always caused.

A plain, economical king or president they will not have, no matter how safe he may be. King Louis Philip was a successful monarch and careful, but his reign was shabby in its plainness and was laughed at even by the poor. This hurts the pride of the French more than anything and they simply would not tolerate it.

Loubet is a plain man with bourgeois traits, but he understands the weakness of his people and plays to their vanity and pride time and again by inviting the nobility to Paris to be seen and worshiped by the crowd, who may possibly see a promise of "revanche" in this proposed visit of royal heads.

Henry M. Flagler, who owns the Florida legislature and has a mighty influence on at least one other legislative body, has at last married the woman whose attentions to him made his former wife insane. Concentrated wealth will often rid a man of the woman he does not love; but there is a higher judgment seat where the poor woman will be judged as fairly as her husband, then he will curse the wealth which made it possible for him to secure happiness at the expense of happiness hereafter.

Dr. E. Benjamin Andrews counts that day lost whose low besetting sun views no speech from him that sets idle tongues wagging. Yesterday it was the church hymn, today it is pleading for the liar, and tomorrow it is a defense for Taccheus, a man who never was condemned and needs no defense.

One fact that should have been taught in the Chicago schools years ago, is the difference between toadstools and mushrooms. Five people would have enjoyed their Sunday dinner much better if that distinction had been drilled into their minds.

The governor is unable to find a game warden for Brown county, and as a result, game is being slaughtered recklessly. Uncle Ike should come to the rescue and send him a man. The job does not require a "trained educator," just an every day shouter will fill the bill.

There is nothing aimed in calling a spade anything but a spade, and this fact is recognized in the declaration of the republican league. The organization stands for republicanism and commands the respect and support of the republican party.

President Castro, of Venezuela, is demonstrating that the American minister who was recalled last winter, knew the man better than was represented. Castro is now provoking a war with Colombia, in an effort to save his official head.

The wives of Chicago are organizing a trust to protect themselves from the servant girls' trust. The modern wife's dislike of the kitchen is ample guarantee that there will be no lockout of the servant girl.

There is one man in Kansas who is quite certain the liquor law in that state is not a dead letter. He has

been fined \$7,500 and sentenced to 1,000 days in jail for running a joint.

Nils P. Haugen should be transferred from the tax commission to the board of control, then the governor could handle him.

It is reported that Prof. Triggs, of the Chicago University, is about to write a hymn book.

## WALTER B. NOBLE ATTEMPTS SUICIDE

News From San Francisco to That Effect—A Woman of Some Kind Mixed Up in the Affair.

Walter B. Noble, a locomotive engineer for the Northwestern, formerly of this city, residing at 406 West Bluff street in this city, attempted to commit suicide by shooting himself in the head with a pistol at San Francisco, Cal., on August 23.

Noble left here some time ago and has a wife living in this city at 406 West Bluff street. The woman mentioned in the account of the shooting is not his wife but a former Janesville woman who was living at Oshkosh and went west with him. At the time he left home he had over \$1,000 with him. It is not known how much money he had when he attempted to kill himself. The dispatch regarding the shooting is as follows:

"San Francisco, Cal., August 28.—W. P. Noble, a locomotive engineer who came here from Chicago two days ago, shot himself at the Brooklyn hotel in this city this afternoon inflicting a serious, but not dangerous wound. Noble was accompanied by his wife. They devoted the most of the day to sight seeing returning to the hotel about three o'clock. Both had been drinking. He grew despondent and said that he would kill himself. His wife urged him not to do so, but he drew his pistol and repeated his threats. Then she says she fainted. About 6:30 o'clock the police were called in by the hotel people, who heard a pistol shot, and found Noble lying on the floor of his room covered with blood from a pistol wound in his face. The ball entered the right cheek and came out under his left eye. He will recover but may lose the sight of his left eye. There was some suspicion that the shot may have been fired by Mrs. Noble, but both insist that Noble shot himself. Noble is a member of the Brotherhood of Locomotive Engineers, and is an engineer on the Northwestern. He carries a card from the Janesville, Wis., lodge and is now on a leave of absence."

Many Are to Leave Nomb. San Francisco, Cal., Aug. 28.—Owners of the steamer St. Paul bring the information that at least 6,000 or 7,000 persons intend to come back to the United States from Nome the present season, though it is doubtful whether the steamers now plying to Alaska will be able to bring such a large number before navigation closes.

The contract for the Carnegie free library at Portland, Ind., has been awarded to Bailey & Andrews of Chicago for \$12,000, exclusive of heating, plumbing and gas fitting.

## MISS MAMIE M'SHANE

Died Last Night at 12:30 O'clock.

After a Severe Ten Days' Illness—

Funeral on Friday.

Miss Mamie McShane, 25 years of age and daughter of Mr. and Mrs. P. McShane of West Milwaukee street, passed away last night at 12:30 o'clock after an illness of ten days' duration. About ten days ago she was stricken with paralysis, and although everything that could be done was done for her, she never recovered. She was a young lady who had many friends in the circle in which she moved who will mourn her death. She leaves a father, and mother, two brothers, D. McShane and Fred McShane, and one sister, Maggie McShane to mourn her loss.

Her father, P. McShane, has been visiting in Ireland and sailed for home last Friday morning. He is not aware of the sickness and death of his daughter. The funeral will be held from St. Patrick's church on Friday morning at 9:30 o'clock. The interment will be at Mount Olivet cemetery.

## SUNDAY SCHOOL RALLY TOMORROW: OVER 10,000 VISITORS EXPECTED

Parade of Children Will Move Through Heart of the City at Ten O'clock in the Morning.

The Rock county Sunday school rally in this city tomorrow promises to be a unique and interesting event. If the weather is fair at least 10,000 children are expected to be present.

Delegates will be here from Beloit both by wagon and on the railroad to the number of one thousand. Evansville has chartered a special train of five cars and will bring an orchestra of twenty pieces. Milton and Milton Junction will also send delegations and Johnstown will unite with them.

The Sunday schools of the towns of Center and Plymouth will make a good showing and will be accompanied by two drum corps. Five hundred from Edgerton, 500 from Clinton and large delegations from Fairfield, Afton, Emerald Grove, Lima, Magnolia and other towns in the county are scheduled.

All have been assigned to some particular meeting place on the west side of the river and at ten o'clock the schools will all meet and form one great procession. The parade will move through the heart of the city to the court house park where a part of the exercises will be held before dinner.

At one o'clock the exercises of the Sunday school rally will begin again and will continue for one hour. There will be stirring addresses and some exceptionally fine music, both vocal and instrumental having been secured. The program is as follows:

Morning Exercises.

Parade at 10 o'clock.

Selection..... Evansville Boys' Orchestra  
Singing..... Led by Dr. F. T. Richards  
Prayer..... Milton Ladies' Quartet  
Opening remarks..... Chairman  
Selection..... Bower City Quartet  
Announcements..... by committee  
Singings.....  
Basket Dinner.  
Afternoon Exercises.  
(1 O'clock, Sharp.)

Selection..... Evansville Boys' Orchestra  
Singing..... Led by Dr. F. T. Richards  
Address..... Prof. H. M. Hamill  
Selection..... Bower City Quartet  
Selection..... Evansville Boys' Orchestra  
An informal conference will be held at the Y. M. C. A. rooms from 3 to 4 o'clock. All workers are earnestly requested to be present.

People do not seem to realize what a large affair this county Sunday school rally is likely to be. There are over 10,000 children belonging to the Sunday schools of this county and each school is endeavoring to send so large a delegation as possible.

There is a prize offered for the one sending the largest delegation. Beloit will send seven schools and the schools of the surrounding county will be present with but very few members missing. If only half of the Sunday school people of the county turn out it will mean a gathering of thousands of people. A rally of the Sunday schools of the county was held in this city twenty years ago in what is now Forest Park and over 10,000 people were present.

## BURIAL RITES OF REV. M. G. HODGE

HELD FROM BAPTIST CHURCH  
THIS AFTERNOON.

Rev. E. H. Pence of Detroit, Mich., Assists at the Funeral—Also the Rev. D. W. Hulbert and the Rev. D. D. Cheney—Splendid Music and Beautiful Flowers.

The last sad rites over all that was mortal of the late Maroni G. Hodge, D. D., were held at the Baptist church this afternoon at two p. m. The church was filled with sorrowing friends and relatives of the eminent divine and a profusion of beautiful floral offerings expressed in a small way their sorrow and respect.

The body arrived in the city at 11:45 a. m. over the Northwestern road and was conveyed directly to the church.

The services were at two o'clock and under the direction of the Rev. Richard M. Vaughan, who delivered eloquent introductory remarks as to Dr. Hodge's life and works. Dr. C. A. Hobbs of Delavan made a touching address on Dr. Hodge's life as a minister and brought tears to the eyes of his hearers.

Reverend E. H. Pence of Detroit, Mich., spoke of Dr. Hodge in his relation to other churches and the community at large. He portrayed the many finer shades of Dr. Hodge's character in his daily relations with the divines of other churches and with the members of their flocks. His remarks made a most profound impression upon his hearers.

Reverend D. W. Hulbert of Watonsa, Wis., took up Dr. Hodge's relations to the church work throughout the state and showed what a wonderful influence he had over the community at large in his quiet and earnest way.

The Rev. D. D. Cheney of Racine spoke of him as a man among men who by his gentle, loving ways and noble characteristics had endeavored himself to all men that he came in contact with. The good things that he could say of him in this line of thought were much less than he deserved.

During the services a quartet composed of Mrs. Learned, Miss Palmer, Mr. Bladon and Mr. Vankirk rendered two selections entitled "My Jesus as Thou Wilt," and "Servant of God." Mrs. Learned sang as a solo, "Jesus Lover of My Soul" in a manner that was most affecting.

The services were participated in by other clergy both from this city and abroad. During the services at the grave the quartet rendered a chapt with made them most impressive. The pall bearers were S. B. Smith, W. E. Clinton, W. H. Rose, I. A. Whitten, Charles Eller and J. T. Fitchett.

Among the ministers present are Dr. Galusha Anderson of Chicago; T. J. Parsons, Clinton; Dr. C. A. Hobbs, Delavan; Rev. E. W. Harburt, Watonsa; D. D. Cheney, Racine; and E. H. Pence, Detroit.

The Salvation Army.

Brigadier Bregle of New York City will conduct two special meetings in this city Sept. 2-3, in the interest of the Salvation Army work. The meetings will be held in the First M. E. church. The brigadier comes to us very highly recommended and we can assure you it will be worth your time to hear him. He is one of the army's ablest speakers. There will also be Staff Captain Waite of Milwaukee who will conduct officers' council during the two days and will also take part in the meetings. Captain.

J. M. BOSTWICK & SONS.

We mention in our second page announcement some interesting summer bargains. They are all worthy of the name, bargain, too.

**MONSTER SHIPMENT**  
Tomorrow morning at The Fair store 300 half bushel baskets of ripe free stone peaches will be placed on sale at 35 cents per basket.

## BONUS CONCERT BEING BOOMED THREE LOCAL STARS ARE SECURED

Mrs. Belle Rolston-Rexford, Mrs. John Fuller Sweeney and Mrs. J. B. Day On the Program.

The concert committee intent on cleaning up the last remnant of the canning factory bonus is not letting the grass grow in its path of booming the show they propose to present at the Myers Grand on Friday, September 6.

"It will be a concert what is a concert," said one of the advance agents this morning. "We expect to engage all of the local talent in the city and the performance will be immensely interesting."

The latest acquisitions to the program today are Mrs. Belle Rolston-

Rexford, Mrs. John Fuller Sweeney and Mrs. Janet B. Day. These ladies have offered their services and will be heard on the night of September 6. Others of local fame will be announced from time to time.

Mr. Kneff, leader of the Imperial band, has kindly dedicated a new march for the High Step Military Band. The piece will be rendered for the first time on Friday evening, September 6.

Some novel and unique features are in course of development and the entertainment promises to be something unusual.

## GET DEEDS FOR THE RIGHT-OF-WAY

R. W. Hill in This City For the Purpose of Closing Electric Line Options.

R. W. Hill of Elyria, Ohio, one of the promoters of the Beloit, Delavan Lake and Janesville electric road, was in the city this morning, having driven up from Beloit where they are now at work. He is now busily engaged in getting the deeds for their right of way on which they now hold options. Quite a number of deeds have already been secured but there is a large number of them still to get.

The grading on the road bed is being rushed along and is already well under way.

A large force of men were put to work grading this morning near A. C. Powers' home, on the Beloit river road. There is a heavy cut to make here and the contractors are anxious to get it out of the way before the winter sets in. Material for the line, buildings and other improvements is being shipped into Beloit daily.

There are several pieces of land that they have not yet secured an option on. This land will have to be condemned by a commission but this will not necessarily hinder the work of construction.

GRAND OPENING ON AUGUST 28.

Finest Lecture Course in the History of the Y. M. C. A. Has Been Secured.

The finest lecture course in the history of the Y. M. C. A. was selected from the Central Lyceum bureau and the contract signed yesterday morning. The course represents nineteen artists and covers the entire field in entertainment, literature, music, vocal and instrumental; absolutely the finest variety of talent ever offered by the Y. M. C. A. course.

The Parker Concert company opens the course on October 28. Every member is a solo artist. Hon. Champ Clark, who is regarded as one of the strongest men in the American congress. He is from Missouri, a typical Southerner. Thomas McClary comes next and is known in the lecture bureaus as the people's favorite. Then comes the Ernest Gamble company. Mr. Gamble is among the first basses of the country and Miss Grace Jenkins, as violinist, is among the best. She has appeared in more than one hundred and fifty concerts in fourteen states. The next attraction is the Durio-Elliott combination and is recommended as without an equal in the country.

The closing number will be a crowning feature of the course. The Wesleyan Male Quartet with Wallace Bruce Amsbury, as reader. This course has been selected after careful investigation of all the lecture bureaus and talent, available and the committee of management, anticipate pleasure and profit to every patron of the course.

Will Close Labor Day.

## NEWS AND GOSSIP OF BADGER STATE

La Crosse drug clerks will organize.

De Pere has a hook and ladder company.

The Stevens Point Normal school opens this week.

The Pickle factory at Palmyra is receiving 150 bushels of cucumbers a day.

Algoma is having its first experience with a street fair and is enjoying it immensely.

Leopold Mann, who has been one of the most effective promoters of Two Rivers, is dead at the age of sixty-seven.

"To Heavenly Realms," is the way The Manitowish Herald heads a death notice. There is nothing like being definite and explicit.

Charles Elver of the Elver House, Madison, has purchased the Capitol Hotel at that place for \$36,000. W. H. Huppeler will continue to manage the Capitol.

Albert Jacobson, an insane man, was taken into custody at West Superior after wandering about for a week with his throat cut, the wound having been inflicted by himself in an attempt at suicide.

The Stevens Point law firm of Cate, Lamoreux & Park has been dissolved. Judge Cate retires and enters into partnership with his son-in-law, Gerhard M. Dahl, of Waupaca. Mr. Dahl will shortly move to Stevens Point.

The coroner's jury in the death of R. M. McDowell, chief engineer of the Howard paper mill, Menasha, who was killed by being whirled around a shaft in which was clothing had caught, returned a verdict of accidental death.

Charles Anderson, who is wanted for desertion from the regular army, enlisted in the Wisconsin National Guard three days before the annual encampment commenced, but deserted while the encampment was in progress. He is also accused of passing worthless checks.

### THEY LIVE BY STRIKES.

Not So Well as the Autocratic Leaders, but Pretty Well at That.

There are a great many facts connected with labor strikes that seldom become public; facts that are noticed only by those who are in constant touch with these struggles between the mechanic and his employer. Many of them are of a serious nature, but not infrequently there is the humorous side to the story. Possibly one of the best of the latter class was detailed by a prominent railroad man who has been mixed up in strike troubles in many sections of the country.

He was talking to some friends about the great steel strike now in progress, when he said: "Did you ever notice what a lot of curious people are brought together when a strike occurs?" Waiting for an answer and seeing that his friends expected a story he continued: "Yes, there are a number of them, there is the strike breaker, the strike loafer and several others who have a class of their own. These individuals fairly live on strikes; it is their one business in life to follow them up, and they drift from ocean to ocean while plying their vocation.

"Take the strike breaker. He is a sort of professional. Having learned that a strike is in progress he immediately puts himself in communication with the capital end of it and proposes to go to work for from one to three weeks at regular wages, but with a goodly sized bonus attached. His position seldom lasts more than three weeks—he does not want it to, for at the end of that time he finds himself possessed of a few dollars with which to go on a spree until he is ready to go to the next striking center.

"But your strike loafer—there's a character for you. He has a scheme for living without doing any work at all, and at the same time finds himself voted a good fellow. He has no trade, and is anything but a mechanic, but he gets there. It matters not to him whether it be railroad hands, machinists, garment workers, or what not on strike, he is at home in any community. All that is necessary for him to know is that a strike is in progress; he will accomplish the rest in short order.

"The first business of the strike loafer is to approach the agent who is looking for men to use the strikers' places. It is little trouble for him to obtain promise of employment and he is sent off to the field of action. Now is when he begins his fine work. On arriving at the shop he looks around, takes off his coat as though he was going to work—and then in a surprised way learns that a strike is in progress. On goes his coat again and approaching the foreman, he will immediately declare that he has been cheated, adding that no man could get him to work in the place of a man who was striking in order to better the condition of the laboring classes.

"Arguments are useless, the man is determined, and out he goes directly from the shop to the strikers' headquarters. To sympathetic ears he tells a story as to how he was deceived by the agent who engaged him and how thoroughly against his principles it would be to go to work in a striker's place. Incidentally, he tells what an awful time he had in escaping from the shop, where, he declares, even force was used to detain him.

"Of course there is a hurrah among the strikers, who are immediately ready to lionize the man. He is carefully quartered and fed for a week or two, and money is given him to help him out until he can obtain other employment. He remains as long as there is a good living coming to him freely, but as soon as that shows signs of stopping he immediately departs to look for another soft thing in the way of a strike.

### A WONDERFUL MECHANISM.

The human body in its intricate construction is many times more wonderful than anything wrought by human hands. Of the various organs of the body the liver is the largest and the seat of the majority of the ills that afflict mankind. It is easily affected by changes of the weather, nervous strain and over-eating. The great office of the liver is to secrete bile, a fluid of a yellow-green color, soapy nature, very bitter and of peculiar odor. When for any cause the common duct that carries the bile from the liver is clogged, the liver becomes deranged and is thus supercharged with bile causing the surplus to pass into the stomach. This causes headache, nausea, yellow complexion, constipation, pains under shoulder blades, dry mouth, discolored urine, sour stomach, and a loathing of food and other symptoms of bile poisoning commonly called biliousness.

To keep the liver healthy and in a normal condition is necessary to proper health and active life. Just the exact amount of bile should be secreted and properly used as designed by nature and to do this successfully and regularly no better remedy can be found than Dr. Arnold's Nuvo Family Tea. The reasons for the action of Dr. Arnold's Nuvo Family Tea are plain; because it removes all obstacles and congestions, stimulates and strengthens the liver to a healthy and normal condition and if the patient persists in its use, the liver, which is the "balance wheel of the system," becomes strong, healthy and permanently active. ## Seek Relief!

The great proportion of women who suffer never make a serious effort to benefit themselves. The most of them go on paying no attention to their little menstrual disorders, believing they will eventually wear off. They grow worse and worse every day. At the period of menstruation a woman is peculiarly susceptible to cold and other external influences and it is also the most favorable time for the development of hidden disease germs which may be lurking in the system. Any physician knows that disordered menstruation, falling of the womb and leucorrhoea are blighting lives in almost every home. No woman should neglect herself a moment after she sees indications of female diseases. Almost instant relief can be secured by the use of

## WINE OF CARDUI

It will relieve you right in your own home. Will you accept the testimony of Mrs. Belgier and thousands of other women and really seek relief today? All druggists sell \$1.00 bottles of Wine of Cardui.

100 Chicago Street, Fort Wayne, Ind., March 27, 1900.

Your Wine of Cardui has done a world of good for me. I have used five bottles of the Wine and one package of Theford's Black-Drainage. And since I have started to use it I will not be without it in the house. It helped my sister in Toledo, who did not menstruate as she ought. She was sixteen years of age and nothing else helped her. I was in a very bad state myself before I used your medicine, but I found relief in three days. And now I feel like a new woman and do all my housework and washing, which I could not do before I took Wine of Cardui. I would be very glad to write any poor woman and tell her how I suffered before I used Wine of Cardui.

## FOR A BABY OF THIS SIZE

Or a baby of any size, when suffering from simple fevers, coated tongue, constipation, or any trouble arising from the stomach, the purest, safest and best remedy is LAXAKOLA, the great tonic laxative.

Mothers, watch your children carefully. Their health, perhaps their lives, depend on keeping their bowels regular. Many parents make a fatal mistake by giving their little children the old-fashioned, violent purgatives which are racking and griping, and are therefore not only unpleasant, but dangerous. Make no mistake, give them

## LAXAKOLA

It does not gripe nor irritate. It is a pure, gentle, speedy and painless liquid laxative. It is not only a sure laxative, but it contains valuable tonic properties which act upon the bowels, tone up the entire system and purify the blood.

A few drops can be given with safety to very young babies, and it will often relieve colic by expelling the wind and gas that cause it. It will aid digestion, relieve restlessness, assist nature and induce sleep.

For constipation, simple fevers, coated tongue, or any infantile troubles arising from a disordered condition of the stomach it is invaluable. Great relief is experienced when administered to young children suffering from diarrhoea, accompanied with white or green evacuations, as LAXAKOLA neutralizes the acidity of the bowels and carries out the cause of the fermentation.

### LAXAKOLA

### FOR THE

### COMPLEXION

Blotched, yellow, unwholesome and muddy skin, with its consequent mortification, often leading to morbid excretion and a serious to society and nature, is due to its normal, healthy, velvety condition is to clean out the entire system, purify the blood and remove the causes, and LAXAKOLA does it, as well as acting directly on the pores and assisting the perspiratory glands in throwing off impurities. It purifies the blood as no other medicine can, and your skin will not only be well but you will be well. At druggists, 25c and 50c. Send for free sample to LAXAKOLA CO., 132 Nassau Street, New York, or 256 Dearborn Street, Chicago.

**MISTAKES HOST FOR BEAR.**

**John Andrews Shot to Death by John Romersa on Ranch.**  
Helena, Mont., Aug. 28.—John Andrews of Red Lodge, was shot and instantly killed last evening just across the Wyoming line from that place by John Romersa, who mistook him for a bear and sent a bullet through his heart at short range. Romersa is a young law student and was visiting Andrews' cattle ranch. In the dusk Romersa mistook Andrews for a bear and ran to the house to get his rifle and returning, fired the fatal shot. Romersa is almost insane as the result of his mistake, and is being guarded to prevent self-destruction. Andrews was a prominent cattleman and well known citizen of Red Lodge.

**DR. PENTECOST GETS CALL.**

**Yonkers Pastor Is Wanted for Work in the Philippines.**  
New York, Aug. 28.—The Rev. Dr. George F. Pentecost, pastor of the First Presbyterian church of Yonkers, who has been in England all summer, and who sailed for America yesterday, has been requested by the American board of foreign missions to organize the religious work in the Philippines. It is not known whether Dr. Pentecost has accepted the call, as he has been preaching at the Marylebone Presbyterian church, London, for the last two months.

**Not Bryan, But His Ideas.**

New York, Aug. 28.—Gov. Tyler of Virginia, who is in the city on his way south from Buffalo, where he was the central figure in the celebration of Virginia day, speaking on the attitude of the Democrats in his state toward Bryan, is quoted as saying that the Virginian democracy was very loyal to Bryan, but as to the principles advocated by him in the last campaign, the people of Virginia felt that the prosperous times existing in the state should not be disturbed by advocating any change in policy.

**Gen. Fabius J. Mead Is Dead.**

Chicago, Aug. 28.—Gen. Fabius J. Mead, who had a notable career during the civil war, died of consumption at the family home, 1198 59th street, last night. Gen. Mead had been a resident of Chicago since 1884, most of the time identified with the loan and insurance business. He served all through the civil war and enjoyed a close friendship with Gens. Grant, Logan and McClellan.

**Fire Destroys Armour Plant.**

New York, Aug. 28.—The cold storage plant of Armour & Co. at the Pennsylvania freight yard in Jersey City was completely destroyed by fire that broke out shortly after midnight this morning. The loss is estimated at \$50,000. The fire was caused by an explosion of chemicals used in the ice plant.

**FRIENDS OF THE TREES MEET.**

**The American Forestry Association in Session at Denver.**  
Denver, Col., Aug. 28.—The American Forestry association in affiliation with the American Association for the Advancement of Science, this morning began a three days' session. Henry Michelsen, vice president for Colorado, acted as chairman of the meeting. After an address of welcome by United States Senator Thomas M. Patterson routine business occupied the rest of the morning. In the afternoon papers on the United States government forest work were read and discussed.

**Starting a War on Quacks.**

Chicago, Aug. 28.—The state board of health has announced that it means to stop 4,000 men now supposed to be practicing medicine illegally in Chicago. Reputable physicians are taking part in the efforts of the board of health. Volunteer information is being submitted to the board of health daily, and a number of deputies are doing detective work. "We have made a beginning by commencing suit against a number of these illegal practitioners," said Attorney J. F. Brower, but it is a small beginning. When Mr. Warwick A. Shaw, attorney for the board of health, returns the prosecution will be taken up with vigor. The evidence is being collected now.

**Made Receiver for Bank.**

Upper Sandusky, O., Aug. 28.—Adam Frederick of Carey was appointed receiver for the Carey Banking company, which was closed yesterday on an attachment. The bank was incorporated with a capital stock of \$50,000. The deposits, it is said, amounted to about \$15,000, but only \$650 cash was found in the vaults when the sheriff took possession yesterday.

**Tramps Killed in a Wreck.**

La Crosse, Wis., Aug. 28.—Local railroad officials received word of a collision between a Great Western train and a Burlington train at Aiken, Ill. Three tramps were killed in the wreck. The Great Western train became stalled trying to mount a hill and when backing up struck the Burlington train. The loss to rolling stock will be considerable.

**Bulgarians Burn Turks Alive.**

London, Aug. 28.—Special dispatches from Odessa and Vienna give unconfirmed reports of Kurdish atrocities in the Dril district of Armenia and of fighting between Turks and Bulgarians in Macedonia, several persons being killed at Pawnsowitz. Another dispatch says that Bulgarians seized five Turks, drenched them with petroleum and burned them alive.
